

Planning Multicultural Experiences

Submitted by Patricia Gaines, Alpha Delta
Lambda State Program Chair

Do you have a “**Passion for Learning**” about the various cultures and ethnicities represented in our SOCIETY and in our world? Participating in a variety of “Multicultural Experiences” will increase your knowledge and appreciation of our diversities and similarities and help you to

“Open the Gifts Within You and ΔΚΓ!”

- Plan meetings at various ethnic restaurants to experience their cuisine and décor while highlighting the language, dress and customs during the “program.” Encourage ethnic members and those who have artifacts, knowledge, or have traveled to various countries to give presentations. Do invite other chapters to share in these “show and tell” learning experiences.
- Guided tours of museums provide opportunities to view artifacts, clothing, and furniture, to learn customs, and to experience timelines of historical events. During our chapter visit to the Swedish American Museum, we learned of one member’s connections and contributions to the museum AND her very close ties with the King and Queen of Sweden!
- On the Mexican Fine Arts Museum tour, beautiful, authentic artwork and artifacts are displayed along with historical explanations.
- Along with many interesting displays, the DuSable Museum of African American History highlights the founding father of Chicago, Jean Baptiste Point DuSable.
- Continue the learning journey to other marvelous museums, including the Polish Museum of America, the Czechoslovak Heritage Museum, the Chi-Am Museum Chicago, the Balzekas Museum of Lithuanian Culture, the Chicago History Museum, and the Hellenic Museum and Cultural Center. **Become a “multicultural expert.”**
