

Spring Conference 2022

The Delta Kappa Gamma New Brunswick Spring Conference, Making Connections, was held June 25th at the Albert County Museum in Hopewell Cape. Gamma was excited to welcome 15 members from Beta and Gamma chapters. After two years with face-to-face restrictions, everyone was happy to reconnect and socialize. Margie Goodin, our provincial president, chaired the provincial general meeting, bringing us up to date on previous decisions and ongoing projects and concerns. All members were given samples of our beautiful new promotional materials – a book mark and a set of notecards, both depicting provincial and national emblems. It was with great pleasure and appreciation that Indu Varma, a longstanding member of Gamma Chapter, was awarded the Influential Woman Award. Janet Clouston, Director of the Albert County Museum, gave as a very interesting and informative tour of several of the buildings. This was followed by our guest speaker, our Area Representative Canada, Marjorie Sinclair. She started her presentation with a short quiz testing our connection to DKG. Sadly, some of us need to hone up on our DKG provincial history! We concluded our conference with a ceremony celebrating our 66th year as part of Delta Kappa Gamma. Our theme for the conference was “Making Connections” and I believe everyone left feeling that connection at the end of our day.
