Thursday 11/3/2016 - Fall is in the air, just barely. And I really do like this mild weather with cool nights but some days it is a stretch to say it is mild. We need for it to get cold enough to kill all the bugs. I am tired of fighting the spider webs.

Friday 11/4/2016 – Fall IS in the air. Football weather finally for the first round of the playoffs. It is a beautiful sunny day that is reflecting what little color we have on the leaves. Election Day is near. (Everyone please exercise your right to vote.) Pecans are coming soon. And it is time to change our clocks. Busy, busy, busy time.

Because of the election, our meeting has been moved until November 15 at 3:45 at LMBC fellowship hall. Presenting our program will be Susan Stevens and she will be sharing with us the use of Essential Oils. The hostess group is RBS#2. Julie Collins will present the Inspiration and Donna McCrory is in charge of the Public Relations this month.

Please bring names of people that you would like recommend for membership and be ready to share what you know about the prospective member.

Hope to see all of you on the 15th and enjoy your day off from school on the 8th.

President,

Wynona Clayborne

Winter is coming. Fall. Fall is here, let's not forget it. And there's no avoiding it. It might still be sunny and warm outside for now, but slowly the leaves have changed and a chill is creeping across the ground signifying the start of a new season. Soon, like a delicious virus, pumpkin spice will flavor all of our favorite foods. "Hocus Pocus" will air on every channel. The warning signs are here already. Prepare yourself for these signs of fall. Football season is in full swing. You can't escape it so join the craze. Starbucks is debuting their pumpkin spice latte. Bow to your pumpkin spice overlord. Stores are displaying Halloween decorations. There's no avoiding a spooky skeleton that plays "Monster Mash" when you walk past it. Hullabaloo, stores are displaying Christmas decorations. Or a dancing Santa. Embrace the kitsch. You missed your sweaters and boots. They look good. They feel good. Don't resist. Watermelon doesn't taste quite as sweet. And our summer tomatoes are gone. Sure, it's still delicious, but wouldn't pumpkin taste so much better? Squirrels are starting to get kind of fat. That's rude. They're preparing for winter. It's inescapable... Your allergies are starting to chill out. Finally, sweet release from summer sneezes! Or your allergies are starting to kick in. Hay fever stinks and we're sorry. Accept your fate. Soon thoughts of the holiday will take over. Resistance is futile.
